

potential advertisement + farm creation (like a brochure)

Setup process

All 'Add's should be importable/exportable

registering

- + user name
- + NIPT (NIPT-i i ferment)
- + Phone
- + (maybe address)

farm parameters

- + location
- + size/capacity (different for different types)
- + legal info (research)

Add Crops

- + if applicable (AL, A)
- + DATABASE CONSISTING OF CROP SPECS. (research)

Add suppliers

(for crops)

Add Buyers

Add Livestock

Add ~~Suppliers~~ Suppliers

Add Buyers

Setup Veterinarians

- + #/name/org/place relative distance

+ maybe we should add a satisfaction index as well as a price index. even though that might be unnecessary

proceed to management

set up notification

- + a possibility to include "send email" for important notifications

+ not yet thought.
